SUMMARY

Full Stack AI Engineer specializing in Agents and DevOps. I build heavy-lifting applications that are fast, smart, and scalable. From AI-powered workflows to backend APIs and modern UIs, I handle the entire stack so you can focus on growth.

TECHNICAL SKILLS

Languages: Python, TypeScript/JavaScript, Rust, Go

AI & Agents: n8n, LangChain, RAG, OpenAI API, Gemini, Ollama

Backend & Data: FastAPI, Supabase (Postgres), MongoDB, ChromaDB, REST APIs

Frontend: React, Next.js, Tailwind CSS

DevOps: AWS, Docker, CI/CD, GitHub Actions

Tools: Git/GitHub, Linux, Vite

EDUCATION

National University of Technology (NUTECH)	Islamabad, Pakistan
Bachelor of Science in Artificial Intelligence – CGPA: 3.88/4.00	*Aug 2023 – Present*
Army Public School Saddar	Peshawar, Pakistan
FSc (Computer Science)	*Aug 2021 – Jun 2023*
Frontier Corps Public School	Peshawar, Pakistan
Matriculation (Science)	*Aug 2019 – Jun 2021*

EXPERIENCE

Ccript Agency	Remote
Full Stack AI Engineer	*2025 – Present*
Neuralogic	Remote
AI Engineer	*2025 – Present*
Ocryz Pvt Ltd	Hybrid
AI Developer	*2025*

PROJECTS

Gig Synappix | *FastAPI, React, AI Chatbot* — 2025
- Built a full gig marketplace platform (hire/get hired) with a FastAPI backend, React frontend, and AI chatbot experience.

Hill Icon (Skardu Hotel Website) | *Next.js, SEO, WhatsApp Integration* — 2025
- Designed and developed the full website with custom branding, performance-focused UI, SEO, deployment, and WhatsApp booking flow.

NUTECH 360° Virtual Tour | *React, 360° Media, Deployment* — 2025
- Delivered an immersive campus virtual tour platform with guided navigation features for events and visitors.

Scoutly (Automated Job Search Agent) | *n8n, LLMs, Email Automation* — 2025
- Automates job discovery by analyzing a CV with AI, searching platforms, and emailing curated summaries with relevant roles.

OmniRecall (AI Knowledge Assistant) | *Rust, RAG, Multi-LLM Providers* — 2025
- Built a privacy-first desktop assistant with global hotkeys, Spotlight-style UI, local RAG over PDFs/code, and multi-provider LLM support.

Nami (Real-time Chat) | *Rust* — 2026
- Developed a secure, lightweight real-time chat app with media sharing and presence/status features.

Cropwise (Crop Disease Classification) | *Python, CNNs, Flask* — 2025
- Web app for crop disease prediction from leaf images using CNN-based classification; includes training pipeline and UI.
